Dear oilsvk8,

Thanks for letting us know about the suspicious email you received. We will investigate it. If you haven't done so already, delete the email from your inbox. If you clicked on any links or downloaded any attachments within the suspicious email or website, log into your PayPal account by manually opening a new browser window and view your account activity. If you see any unauthorized transactions, go to the Resolution Center to report it. It's also a good idea to change your password.

### Additional Information & Help

Due to COVID-19, there has been an increase in fraudulent email messages. We recommend that you exercise caution to verify the authenticity of all emails prior to clicking on any links. Authentic PayPal e-mails will always include your first and last name, or your business name.

If you are reporting an issue with a transaction or donation that you made, or if you would like to report a fraudulent payment request, please contact us through the Resolution Center.

Learn more about fake emails and spoof by visiting our Help Center. Click Help & Contact on any page and then search for "fake emails" and "spoof". You can also find help on changing your password and viewing your account activity in the Help Center.

Thanks for being a PayPal customer,  
PayPal Security
